

PARTH PATEL

Full Stack Developer

perthhho@gmail.com | +91 93133 83425 | github.com/perthhho | perthho.github.io/portfolio

SUMMARY

Full Stack Developer with hands-on experience building and deploying production-grade web and mobile applications using the MERN stack, TypeScript, and Next.js. Proven ability to deliver end-to-end solutions independently and in team settings, including client projects and hackathons. Passionate about scalable architecture, clean code, and AI-integrated applications.

EDUCATION

B.Tech, Computer Science Parul University | 2023 – 2027 (Expected)

SKILLS

Languages: JavaScript (ES6+), TypeScript, C, HTML5, CSS3

Frontend: React.js, Next.js, React Native, Tailwind CSS, Responsive Design

Backend: Node.js, Express.js, REST API, API Integration

Databases: MongoDB, SQL, SQLite, Mongoose

DevOps & Tools: Git, GitHub, Linux, Bash, npm, CI/CD

Concepts: Data Structures & Algorithms, System Design, OOP, AI Agents, LLM Integration

WORK EXPERIENCE

Freelance Full Stack Developer | Self-Employed

2024 – Present

- Designed, developed, and deployed a production landing page for a photobooth business client using Next.js and Tailwind CSS, handling the complete project lifecycle from requirements to delivery.
- Managed client communication, project scoping, and independent end-to-end delivery, demonstrating professional web development and agile project management skills.

Hackathon Participant | PuCode Hackathon | OceanLab x CHARUSAT 2025 – 2026

- Engineered 2 full-stack applications in 24-48 hour hackathons, collaborating in cross-functional teams under strict time constraints.
- Demonstrated rapid prototyping, agile collaboration, and full-stack development under pressure, resulting in deployed, real-world applications.

PROJECTS

Cross-Platform Mobile Application | React Native | MERN Stack | REST API | MongoDB

- Developed a cross-platform full-stack mobile app using React Native, Node.js, Express.js, and MongoDB with RESTful API integration for real-time data management.
- Implemented iOS and Android compatibility with scalable backend architecture and efficient state management using React hooks.

Photobooth Business Landing Page | Typescript | Node.js | Tailwind CSS | PostgreSQL

- Built and deployed a responsive, conversion-optimised landing page using Next.js and Tailwind CSS with mobile-first design and fast load performance.
- Delivered a client-facing production project demonstrating end-to-end web development, SEO awareness, and professional client communication.

Fully Automated Printing System | TypeScript | Next.js | Electron | Node.js | REST API

- Architected a full-stack automated printing system comprising a Windows desktop app (Electron), a web platform (Next.js), and a backend server (Node.js) written in TypeScript.
- Automated end-to-end print workflows, eliminating manual steps and significantly improving operational efficiency and processing speed.

AI Sales Copilot | React | Node.js | LLM Integration | AI Agents

- Built an AI-powered sales coaching assistant integrating LLM APIs with a React frontend and Node.js backend, using AI agent architecture for real-time personalised guidance.
- Simulated realistic sales scenarios to deliver contextual feedback, improving conversion technique skills for early-career sales professionals.
